*Belted Kingfisher + Fireweed*

Residing in Canmore, AB, the mountains stand strong around me, the nearby prairie sky fills with wind and colour above. I couldn't ask for a better studio. As an artist I reflect on my experiences of the outdoors and strive to show my appreciation the best way I know how: painting. In a time of disconnect from nature, I advocate that art is a tool to help us better understand the natural world. A tool of celebration and connection, the arts act as a call to action. I tell the stories of the natural world that are desperate to be heard. As an Artist Educator, I dedicate my lessons to using art as a tool for personal connection to nature; celebrating the land beneath our feet and allowing people of all ages to better understand the natural world and the ways we can protect it. My paintings were my love letters to the world around me and they continue to be so. It was through these experiences that I gained a respect and admiration for nature that is prevalent through my work. I try to emulate the feeling of harmony and peace I can only feel when I am outdoors. Nature has always been my playground, my classroom, my greatest teacher and healer.

## Bigoudi

*May The Forest Heal

Although my native province of Quebec has shaped the person I am, my adoptive Alberta has transformed the artist I have become. During my formative years in the mid 90s, I completed a diploma at Collège Jean-de-Brébeuf in Fine Arts and Communications, attended the Visual Arts Program at the Université du Québec à Montréal and graduated from an intensive Interior Design program at Inter-Dec in Montreal. After moving to Alberta in 2002, I have been largely self directed in my artistic pursuits – participating in artist-residencies, attending lectures by international artists, and teaching when time allows. Since 2004, I have produced 26 solo exhibitions, participated in more than 35 juried group shows across Canada, and been awarded four Public Art Commissions by the Town of Canmore. I've also participated in four artistic residencies at The Banff Centre and have been selected as a 2015 artist-in-residence with TRACS program on Fogo Island in Newfoundland. You can also find my work at the University of Calgary Faculty of Veterinary Medicine and at the University of Regina. In Canmore, you can find Bigoudi's work at Elevation Gallery.

## Michael Cameron

*There's A Crack  
In Everything*

Born in Halifax, Nova Scotia, landscape artist Michael Cameron is now based out of Banff, Alberta. Michael earned his Bachelor of Fine Arts from the Ontario College of Art and Design in 1984 and has also studied at Carlton University and the Banff Centre for the Arts. Working in acrylics and oils, Michael enjoys the solitude of painting. His slow and solitary process gives him the space for his ideas to be fully realized. Preferring to paint indoors instead of outside or on-site, Michael relies on sketches, photographs or memory to bring his experiences with nature to life. Recurring backgrounds, dogs, and bold colours and brushstrokes are just a few characteristics of Michael's paintings. With a touch of nostalgia, Michael comments on the present, highlighting issues like technology, politics and consumerism. His techniques are sophisticated, creating a layered surface, which both clarifies the subject and distorts it. Always interested in evolving, Michael is never afraid of experimentation and enjoys exploring new techniques and styles. In Banff, you can find Michael's work at Canada House Gallery.

It was quite by accident and there certainly was no intent to actually paint. However, she was immediately captivated by the colours and the way the pigments moved on the paper. She has been painting and learning ever since. She has participated in solo and group shows and has even won a few awards for her painting. She has since retired from medicine and now spends much of her time painting, potting and roaming the mountains near Canmore. I strive for my artwork to take you on a beautiful journey through the ever-changing time periods of the Canadian Rocky Mountains. I believe there is something particularly special about once in a lifetime moments lasting forever. I am inspired by the frequently shifting environment I live in, here in the Bow Valley. ## Tom Willock

*Trail of the Cedars, Waterton/  
Glacier International Peace Park*

A native of southern Alberta, Tom Willock has photographed the landscape of his home for over 60 years. He considers us all part of a story. Each of us participates in the historical unfolding of places and lives - human, animal, plant, geological and geographical - all interconnected in some way. We, as "keepers of the kin" to the earth - as witnesses, are each responsible for making the words and images and memories that tell these stories. For Tom, the place has been the southern landscape along the U.S. border from the shortgrass of the prairie dog town near Val Marie, Saskatchewan, across the Sweetgrass Hills and the Milk River Valley to the Crown of the Continent peaks of Waterton and Glacier National Parks in Alberta and Montana, and up the Rockies to Banff. Photography and writing help him tell these stories. In Banff, you can find Tom's work at Willock & Sax.

Tom's Art In Nature Trail piece is located at The Whyte Museum Of The Canadian Rockies on Bear Street.
